

CONSTRUCTION PROJECT INFORMATION FLYER CITY OF ST. AUGUSTINE

Project Goal: **Lincolnvile Utility Rehabilitation Project – South and DeHaven Streets**

This project received cost share funding from the St. Johns River Water Management District (SJRWMD), the Community Development Grant Block (CDBG) program, and the Lincolnvile Community Redevelopment Area (LCRA) to complete infrastructure improvements. This will consist of storm, water and sewer work on sections of South and DeHaven Streets. This project will replace aging utilities (water, sewer services) and provide storm drainage improvements, with resurfacing of the road once the utility work is completed. Additionally, approximately 1.4 miles of roads will be resurfaced.

Project Improvements

The City's Contractor will be performing the following work:

- Install new storm drainage infrastructure on South and DeHaven Streets (pipe and inlets).
- Replace existing sanitary sewer services.
- Replace existing water main and associated services.
- Reconstruct and/or mill and resurface the roads once the utility work is completed.
- Additional milling and resurfacing of approximately 1.4 miles of roads including portions of: Weeden, Sanford, Moore, Twine, Blanco and Cerro Streets and Martin Luther King Avenue

Note: The contractor may need to close off sections of South and De Haven Streets during portions of the construction in order to complete the referenced improvements. A MAINTENANCE OF TRAFFIC PLAN will be in place to direct traffic flow during any road closures. Access to existing driveways will be maintained to the best of the contractor's ability during the work. Please follow road closure and detour signs and plan accordingly.

Project Approved

By the SJRWMD on June 13, 2017. By the City Commission on September 25, 2017 for the SJRWMD Cost Share Agreement. Department of Economic Opportunity approval to proceed with bidding, April 25, 2019. Contract awarded to DB Civil Construction with Notice to Proceed issued October 3, 2019.

Questions Concerning the Project

Project Manager (City of St. Augustine):

Jessica Beach, Professional Engineer

Project Contractor

DB Civil Construction

Office Number: (386) 256-7460

Project Schedule

Equipment and Mobilization: Week of Oct. 28th

Construction: November 2019 - July 2020

Project Overview: This project was approved by the SJRWMD Governing Board for Cost Share funding for the District's General Cost Share Program for FY17-18. As such, up to 33% of the construction costs will be covered as part of this cost share program for the storm drainage improvements. Additionally, CDBG grant funding and LCRA funding will cover the utility and road work and a portion of the stormwater work. During construction, portions of South and DeHaven Streets may be closed in order to complete the improvements. The contractor will make every effort to expedite the project to minimize the road closure and we ask for your patience during this time. A maintenance of traffic plan will be in place, including signage and routing of traffic. Work hours will be Monday – Friday, 7:00 AM – 5:00 PM, unless alternate work hours are required in order to maintain the project schedule and accommodate the tidal cycle. Notification regarding any necessary alternate work hours will be provided in advance. The enclosed project map shows where the work will occur. Please plan accordingly and we appreciate your patience.

Stormwater Utility Friendly Reminder

Help reduce environmental contamination by calling the Public Works Department at 825-1040 and reporting cave-ins, unusual amounts of standing water, clogged drains; illegal disposing of lawn debris, paint, oil, gas or any other items into the drainage system.
